

NIDA-Inserm Postdoctoral Drug Abuse Research Fellowships

Rigorous postdoctoral research training for U.S. and French scientists

Application Deadline: April 1

- 6- to 12-month awards, renewable once
- French scientists work with a NIDA grantee in the United States
- U.S. scientists work at an Inserm lab in France

All Applicants Must

- Hold an earned doctoral degree in medicine or biomedical sciences
- Have completed postdoctoral research demonstrating the ability to engage in independent research
- Identify an eligible researcher willing to serve as a fellowship mentor
- Notify NIDA and Inserm of your intention to apply
- Write a ≤ 3 -page research plan for working with your mentor
- Have your mentor complete his or her section of the application

FRENCH APPLICANTS MUST

- Be a citizen or permanent French resident
- Be eligible for a J-1 visa to enter the U.S.
- Be proficient in written and spoken English

U.S. MENTORS FOR FRENCH APPLICANTS MUST

- Be a current, NIDA-funded U.S. researcher investigating drug abuse and addiction in:
 - Computational neuroscience
 - Bioinformatics
 - Statistics
 - Genetics
 - Epigenetics
- Be included in the *List of Prospective NIDA-Funded Mentors*
- Work at an institution participating in the U.S. J-1 visa program

U.S. APPLICANTS MUST

- Be a citizen or permanent U.S. resident
- Live and work in the United States
- Be eligible for a French temporary work visa

FRENCH MENTORS FOR U.S. APPLICANTS MUST

- Investigate drug abuse and addiction in:
 - Computational neuroscience
 - Bioinformatics
 - Statistics
 - Genetics
 - Epigenetics
 - Neurobiology
 - Clinical trials
- Be a researcher with one of the agencies included in the *Inserm Host Laboratories and Research Programs Directory*
